CHAPTER 5, Exhibit 50

FSM = SCIENTOLOGIST AGENT

INFO REPORT RE: MEDIA FSM

JUN. 28 RECD

Dear Sandy,

In compliance with instructions from DG I PAC, I have recruited and placed an FSM in a media (reporter) position who will have all the proper credentials for interviews, proper cover, etc.

My FSM is now in the position of "Reporter-Researcher" for Forbes Magazine, a major U.S. financial magazine with a paid circulation of 650,000, published every two weeks.

Our first product from this association will be an entetha arcticle on the AMA that will appear in the July 15th issue. The title of the article has not been set as of this date, but the tentative title is "Medicine: The last unregulated monopoly."

I have provided my FSM with voluminous data about the workings of the AMA and the current level of incompetency of the American medical profession as a whole. My FSMs editor has just returned from an AMA meeting in San Francisco and wants to slant the article towrds the way doctors are more interested in money than in their patients.

The FSM is in a position to originate articles and has a perfect excuse for interviewing people in depth, plus a prestigious magazine to back up his work.

I will keep you posted on the developements of this arrangement.

Love,

Allen

P.S. A copy of the magazine is attached for info. My FSMs name will appear on the masthead, starting with the issue of 15 July 1977.
