

WHO IS THIS MAN? Why Is He Here?

- This man, Graham E. Berry, used to work as an attorney. Now he holds no job. He told a court under oath that his psychiatric problems, alcohol dependency and treatment prevent him from practicing law.
- One young man Berry represented has sued him, claiming that Berry demanded sex in exchange for his legal services.
- Berry has been accused of having sex with under-age boys. He claims they were over the age of 18.
- A California State Court has declared Berry to be a vexatious litigant because he has filed so many frivolous and harassing lawsuits.
- Berry has been ordered to pay approximately \$100,000 in sanctions and attorneys' fees to Scientologists in the frivolous lawsuits he has filed.
- Berry lost the biggest copyright infringement case for a single work in U. S. history at trial -- a case involving a work by L. Ron Hubbard. His client conveniently filed for bankruptcy to avoid paying this judgment and now spends his time trying to harass Churches of Scientology into paying him millions of dollars, supported by Graham Berry his loser lawyer.
- Berry is a bigot and proud of it. He will do anything to attract attention to himself.
