

Notes from Anne Mamon

MAM

5 December 95

LISA MCPHERSON

Flag public living in Clearwater, FL.,  
dropped her body this evening while being taken to a hospital in  
New Port Richey, FL.

had been staying at the Fort Harrison Hotel at 210  
South Fort Harrison Avenue after having gone into a psychotic  
break on the 18th of November, 1995. She had a room in one of  
the back Cabanas, #174. She had attendants with her. The  
purpose for having the attendants with her was to ensure her  
safety; to keep her from hurting herself and others and to  
provide her with basics such food, rest and hygiene and to assist  
her to come out of the psychotic break.

This evening when Janis Johnson examined she noticed  
bruises on her body that were not healing as bruises normally  
would which she recognized as a sign of a more severe infection.  
She called Dr. Minkoff (David) seeking his advice. He advised  
that be taken to the hospital for treatment. Alain  
~~explained to Dr. Minkoff the concern he had with this which is~~  
~~that she did not want to end up in psych hands.~~ Dr. Minoff then  
said that should be taken to his hospital in New Port  
Richey. She was immediately taken, but on the way to the  
hospital she got worse and died at the hospital. Driver was  
Janis Johnson and accompanying her was Laura Arrunada, MLO staff.

An autopsy will be done to officially determine the cause of  
death.

BACKGROUND:

started Scientology services in 1982 (July) in Dallas,  
Texas. The first Flag service she did was the Keeping  
Scientology Working Course in June 1983. did her lower  
Bridge at the Southwest Mission in Dallas, TX. She came to Flag  
in 1986 for her CCRD in 1986 but did not attest to the state of  
Clear until September, 1995.

was a staff member in the Southwest Mission in 1984 but  
it is not known at this time for how long she was a staff member  
there.

~~There is a note that had joined the Sea Org in 1989 but~~  
~~did not stay very long (under one year).~~

Specifics on case track are as follows:

did the Purification Rundown from 26 July 82 to 11  
August 82. She has a heavy drug history. She had Life Repair  
Objectives (which were quickied and done twice later), Self-  
Analysis List 1, ARC Straightwire (which was left incomplete in  
1983), a lot of wordclearing, ethics conditions and study  
handlings throughout 1984.

She did her Scientology Drug Rundown in 1985, though this  
was quickied at the time and more had to be done on this in 1986  
along with further Objectives. She also had the False Purpose  
Rundown list 10-A in 85.

In 1986 (along with her Scn Drug RD review and further  
Objectives) also did a Green Form 40 (quickied) and a CCRD  
which found her not Clear. Then had quickied Grade 0, quickied  
Grade I and did her Grade II, including a Jo'burg.

In Dec 86/Jan 87 she had a (PTS) Rundown (items were Mom, Don  
and Therese). Then she had Grade III and Grade IV (some ser facs  
not run as ser facs). This was followed by a large amount of  
wordclearing, False Data Stripping and O/W write ups up to the

end of 1987.

In 1988 she had study handlings and ethics handlings.

She did no auditing in 1989 and 1990.

In 1991 she got an HCO Sec Check for leaving staff.

In May 1991 came to Flag and wanted to a CCRD. She received a PTS Correction List, PTS C/S 1, PTS Interview, Dynamic Sort Out Assessment (old version) and then did the CCRD. (She felt she'd gone Clear last life time.) The CCRD found her not to be Clear. Also in 1991, her KTL Clay Table Processing.

In 1992 was sick and roller coastering constantly despite having done her PTS Rundown. She then did a long assist program.

Completed her KTL and LOC in 1993 and then did her whole NED Pgm and attested to NED Case Completion. She went Clear at that point, but this was not recognized at the time. Also in 1993 got Wordclearing Method 1 (very quickied) and got another Green Form 40 done (again quickied).

In 1994 did L-11. In June 1994, got LX Lists and another Green Form 40 was attempted and dropped. She is then put onto Expanded Grades. She got through her ARC Straight-wire and part of Grade 0, gets an Int handling and gets her PTS Rundown flattened (items were Sandy, Porter, Dad, Carla Davis, and Kurt Payne). Then Grade 0 and Grad I were completed and Lisa got started onto 1-12 which she completed in Feb 95.

In June 1995 caved in and actually went into a spin (psychotic break). She stayed in the spin despite attempts to handle. Finally, she was gotten out of the spin, completed here review and attested to the State of Clear. This was 7 September 1995.

Since then, up until her psychotic break on 18 November 1995 she had done several ethics handlings at her work, AMC Publishing, owned and operated by David and Bennetta Slaughter in Clearwater. She had been writing O/Ws for weeks and was acting strangely the last couple of days prior to her break which was not reported to Flag.

On the 18th Bennetta had driven to where her car was parked, dropped her off there and expected her to meet her at Bennetta's home. On the way to car, which was parked at AMC Publishing, they drove past an automobile accident which was located 1 1/2 blocks away from the office and car. The police were there, the paramedics, etc. What appears to have happened after Bennetta dropped off at her car is as follows:

As was approaching the accident, in her car leaving the office, she herself had an accident. She ran into the back end of a boat which was being towed by a vehicle. The motor of the boat came loose from the boat and some damage was incurred to the other party by . She and the other party exchanged information (names and phone numbers) so that matters could be handled by the respective insurance companies. According to the other party (who later called apartment looking for her) there was a question as to whether or not had insurance to cover the damage to his motor. The other party then left the scene and it was after that went into her psychotic break. Sh stripped off her clothes in front of them and was walking near the scene of the other accident. They gained control of her and had one of the paramedics there take her Morton Plant Hospital.

From Morton Plant Hospital

phoned the Slaughter

residence. Bennetta was not there as she'd gone out to look for worried because she had not shown up at her house. David Slaughter and a Scientologist living in their home, Mary DeMoss went over to Morton Plant Hospital to help. They had no idea at the time what had occurred earlier at the scene of the two accidents. An OT VIII chiropractor in Clearwater also went to the hospital, Jeanne Dekaiper. Mary DeMoss contacted OSA Flag with the data about the psych break and that was in the emergency room with the threat of getting committed.

Prediction I/C and Social Reform Off went to the hospital as well as the Snr C/S/ FSO, Alain Kartuzinski. Two of the MLOs also arrived shortly afterward. They were Judy Goldsberry-Weber and Emma Shamehorn. The doctor on duty was r-factored that it was against beliefs to speak to any psychiatrists and that this was highly unacceptable (to send one in to see her). was in one of the back rooms at the time, along with Mary and Jeanne. Alain was gotten back there to see her.

A psych nurse was sent to examine as opposed to a psychiatrist. assured him that she was OK and would not hurt herself nor anybody else. She was fairly lucid at the time. He adjudicated that could be released into the care of Judy Goldsberry-Weber who the hospital staff and duty doctor are familiar with. They know she takes care of the Church of Scientology staff and parishioners who go to the hospital.

was then taken to the Fort Harrison and was set up in Cabana #174. Susan Schurenberger stayed with her. (Susan had stayed with Lisa when she was in earlier spin in Aug 95.)

During her stay in the Cabana did not improve except for after having been given aspirin or sedatives. She was regularly violent with the girls staying with her.

This evening, she was examined by Janis Johnson (MLO). She contacted Dr. Minkoff who advised taking to the hospital. Current data from Dr. Minkoff is that it appears body was overwhelmed by a sudden infection which might have been menengitis. The virus could have taken its effect on the body in as little as 8 - 10 hours. The autopsy will be done tomorrow.

Much love,  
Prediction I/C  
OSA Flag
