

I IGNORED WHAT I SAW

1. I decided to be reasonable about collecting money for WW and stopped the money from coming in.

2. Last night at the HGC in front of Debbie Ward. I was going to talk to Glen, a chiro from Ohio about a dono and Debbie said "he doesn't have any money" rather sympathetically, like I needed to not bother asking him for any. She said that she had told him even as poor as she was she was donating \$100 so he should do \$25. I walked away and decided that Glen wasn't a cycle and I decided to go into sympathy with the both of them. I did not ask Debbie WHERE was the \$100 she was going to donate and went up to Glen and told him I did not intend to cause him to ridge up on the cycle and that I knew he was already a great contributor and how I was going to make it ok that he not contribute. The truth of the matter was he did indicate to me as a cycle and the fact that he ridged only indicated I was missing SOMETHING on the cycle. He ran and I let him get away. This wasted more time on regging, I invalidated Glen, I let Debbie Ward be out ethics (if she is on OT7 and a local business owner and can only afford \$100 she probably isn't applying conditions) I blew a cycle.

~~1. I decided to be reasonable about reaching a promised commitment and stopped the cycle from going thru last night.~~
^{REFUSED}
~~DEV T~~ I FAILED TO FOLLOW CORRECT INSTRUCTIONS AND CAUSED

2. Last night at the FH in the reg reception area. I had decided earlier that I was going to get the Clair Guignon cycle done last night no matter what and had promised Katie it would be a done cycle that she did not need to go with me - she volunteered. I went to the base and first thing I did was Q & A with what Clair had instructed me to do. She had told me to contact Harvey Jacques over the phone earlier, which I did not query I just made a note of it. I had a question as to what he had to do with the cycle and just dubbed in he must be the person at the org, who is over books. The question came up 2 more times before I left and each time I was also puzzled at who he was but did not query it. I finally got an answer that he was over planetary dissemination so I dubbed in that my buddy, Rudy could help me so I went to the org and found Rudy instead of Harvey. Rudy instructed me to go to the bookstore and just tell them that I needed to debit out an account \$5000 for the books which I did. I called Clair and told her the cycle was done and she just needed to call the bookstore to debit her account. I waited about an hour for her to call and she had not called back. I called her again and left a message that I was waiting at the bookstore and wouldn't leave until she called so I wouldn't miss her. Within 5 minutes she called back and told me that there was an apparent confusion on the cycle and that the cycle was not a debit from her ordinary book account which is why she had instructed me to speak with Harvey, she said it was quite honestly a huge dev-t cycle and that Harvey had agreed to help in situations like this. She had paid for a mission book package which she wasn't using and that is where the money was coming from. She said to go and find Harvey and tell him what she wanted to have done and he would help. I went to reception and told Cathy I needed to speak with Harvey. I TR3'd it twice and finally Cathy came back and told me "Harvey said it was very important that he speak with you but he is not going to be able

to tonight and that I could come see him Friday after lunch". I said OK and left. I did not get the product.

1. I ~~decided to be reasonable about getting the product and stopped a donation cycle~~ **DID NOT DO WHAT I HAD PROMISED MYSELF** **WOULD DO**

2. The night I met Greg Moore at the HIBO. I was sitting across from Barclay Bean who had joined me and Greg walked up because I had made an appointment to see him that night. Instead of going for my product I got off into telling them my win I had just had. Time ran out and Greg had to leave to go somewhere else. The particle went out of control and I didn't handle it. I finished eating and chased him down again. He was leaving and going in session. I waited for him almost an hour and when he came back and sat down with me instead of going for the product I decided to get him to tell me about his L-10 wins which he did. He was plainly pooped after having had a long session so after he got finished telling me his wins then he said he was tired and had to leave. I started telling him about the project and he went BIs, he told me he just wasn't interested in it and couldn't do anything on it. I decided that is because he was tired and let him go home. I didn't get the product.

1. I allowed someone to third party a Scientology celeb ~~Carmen Lara and did not stop it.~~ **CONSENTED TO AND COMMITTED 3P ON A SCIENTOLOGY CELEB**

2. Back when I first started working on the project, Bill McCann had a comm line with a lady, Cotty Rendon who was a major contributor from years before. It was in September on a Monday night in the kitchen at AMC. Bill was going over the names he had collected money from before. He gave me Cotty's name and said he had the best comm line with her and that he could call her. He mentioned that her partner, Carmen Lara, was not an easy cycle and he really didn't think we should approach her. He said he did not believe Carmen would be good to go to as she was not the one who had agreed last year, it was Cotty. I did not query this at all, I just dubbed in that Carmen was a smuck and wouldn't play the game and she would not be interested in talking to us. From Bill's comment I decided that she was rough and out of ARC. This stopped all regs from coming to her, stopped her flows to the project, stopped her ability to contribute to the project, invalidated her past contributions to the project as she was directly involved in the dono and it was not only Cotty who contributed but Carmen as well and this was well known.

1. I decided to covertly reg Cotty Rendon behind Carmen Lara's back.

Time
Place
Sym?
Event?

2. Once I had decided that Carmen was a "worthless cycle" I never even bothered to try and call her. Instead I decided to go around Carmen and try and covertly pull off a dono from Cotty behind her back. I had intentionally not contacted her deciding she would have CI on the cycle and therefore should not be enlightened. This cycle jammed from the beginning and would not move an inch. I could not get Bill to call Cotty; I could not get to Cotty even by way of another who had no overts on her. The cycle shut down completely. No production occurred. This created Dev-t for me, Bill McCann, Gloria, Cotty Rendon's staff (taking messages and handling traffic we were putting on Cotty's lines), Bennetta, the fund raising.

W/HELD THAT I HAD S/G GOING ON CONCERN
 CARMEN LARA

1. I decided Carmen Lara could only contribute \$5000 which put CI and Devt on the contributions to the Winter Wonderland project.

2. On Saturday I received Carmen Lara's name from Laura Betterly, a local FSM. She was passed to me as being a completely in ARC high toned lady. I was very anxious to meet her and tell her about the project. I had promised Bennetta I would check in with her that afternoon to tell her what I'd gotten done. I called her from the HGC and told her what I'd accomplished. I told her I'd gotten Carmen Lara's name from someone but I didn't know who she was. Ben told me this was Cotty Rendon's partner. I immediately withdrew and decided I had to "figure out a way to handle the cycle". All Ben said was that "she is Cotty Rendon's partner" and I flinched. I immediately had a problem. (arc breaks, problems, out ruds, hmmm could there be s/g to this?) and from that point forward I had CI on the cycle. I went back in my mind to the comm cycle I had with Bill McCann earlier and what we had decided to ask Cotty for (which was \$5000) and decided that is all I could ask Carmen for. I stopped the forward progress of Winter Wonderland by cutting across the reg lines with arbitrary decisions.

I REFUSED TO WEAR MY HAT AND DO MY JOB
 1. I decided to set up a circuit and use this instead of being there myself and communicating on a reg cycle. I used the circuit and blew the cycle. OF RAISING MONEY FOR WW

2. On Wednesday I had an appointment with Carmen Lara to talk to her about Winter Wonderland. I Q & Ad with whether or not I was going to be there or just set up a circuit before I did the cycle. I decided to be there but to first use a covert line of bullshit to get her into comm with me. She went into comm with me very easily, probably would have anyway. I had my attention on bullshitting her instead of what she was saying. She communicated quite overtly that she was a million dollar contributor, that she had money coming in regularly from Mexico, that she only kept a small amount of money here for her accommodations which was around \$100,000. This all was before the fact of me asking her for a donation. Instead of deciding based on what she told me her quals were, I decided based on what I had decided earlier of what I could confront asking her for (which was only the amount she had given the year before), that I should just ask for \$5000. As I went into the part of the reg cycle where I ask for the money, I said to her "we are almost finished raising money, in fact, what we need right now is only \$12,000 and we are done. Now there is no way we would ask you for the entire amount but I would like to know what you would like to contribute to the project?" this is where I set up the circuit and I disappeared. She did not answer my question and I missed it. She said "what are you asking me to contribute?" this required my arrival back so I came up to the surface and computed her question and fumbled and jerked around in my space as to how I could answer. Now I'm back with my bullshit, I said "well, since you are doing so many other things, what I'd like to ask is for you to only contribute what you did last year which is \$5000." I darted out again. She explained that she had to get more money from Mexico sent and that she needed to talk to her partner, I swear now I cannot recall what she said to give me the impression she was going to donate the \$5,000, it could have been a dub in as well. She did NOT say anything like: yes, I will definitely donate \$5,000 to your

project and you may collect the check from me next Wednesday. That was not the comm. I do know she had to talk to her partner Cotty. She was going to propose that Cotty do 1/2 and she would do the other 1/2. It seems like she did mention something like, could we wait until next Wed for the money, I'm just blown on what she commed exactly. Later I had a Q&A on whether or not she was definitely going to do the \$5,000 and Gloria confirmed yes, she was set on that. This created Dev-t for me, Gloria, Katie, Bennetta, Carmen and is still creating dev-t.
