Done: I blew the course room
to make a phone call.

Time: On a Sunday morning.

Place: the course room to Qual

Form: sneaky, hiding, I didn't
report where I was going, I just
left

Event: My pager went off. I looked
around for Stuart and he was
in the back doing a drill.
I slipped out the door and into
Qual. No one saw what I was
doing in qual. I quickly made the
phone call in qual and reported
back to the courseroom

Form: I was covert and just told Stuart s'd be right back. I didn't tell him where I was going or why.

Event: My pager went off. I looked to see who it was and A+A'd as to how s'd get out of the Class room without Stuart knowing where I was going. I felt uncomfortable and just said to him s'd be right back and went into the room next to the academy and made the phone call. It was Doris Lam a realtor who had a question on a loan app I was going to take. She also had some info to give me. I took the data and made another phone call to the applicant.

Done: I blew the classroom to make a phone call

Form: A knew it was against policy and violated it anyway. A disregarded the out-ethics of what A was doing.

Event: My pager went off. A went to Stuart and told him A had a quick phone call to make and justified it by saying it would only take a second and A'd be right back. A went to Oval and made the phone call and told the person A'd have to call them back at 1:00. Then A went back to the classroom.

Done: A lied to Stuart and told him A was going to the bathroom when A actually was going to return a call that was on my pager.

to the reg office next to Gene.
Form: A outright lid. A blow
course. A isolated policy.

Event: I saw my pager go
off. I thought to myself I'd
tell Stuart I was going to the
bathroom then went and told
him that. I went back to my
pager to memorize the number.
I walked out to reception and
stopped at the front desk. I
saw no one was around and
went into the reg office next
to Gene's and made the phone
call then went back to the
classroom.
