

## SEATTLE PUBLIC SCHOOLS

ADMINISTRATIVE AND SERVICE CENTER • 815 Fourth Avenue North • Seattle, Washington 98109

December 7, 1979

Mr. Michael Linn Shannon  
P.O. Box 1526  
Portland, OR 97207

Dear Mr. Shannon:

In checking with the Office of our General Counsel it is his opinion that this information cannot be given out but could be subpoenaed if a lawsuit occurs.

It is against Seattle School District's forthcoming policies under the 1974 Family Educational Rights and Privacy Act to release this information.

Sincerely,

Hal Reasby  
Associate Superintendent

HR:lw

15. I was granted a furlough or leave of absence from my service on \_\_\_\_\_  
to \_\_\_\_\_

16. I was (was not) a conscientious objector; I did (did not) perform no military or naval service whatever, and did (did not) refuse to wear the prescribed uniform of the branch of service in which I was serving.

17. I was (was not) discharged for alienage.

18. Remarks:  
Date when originally examined: try into service as date of  
admission into service: \_\_\_\_\_  
Limiting affidavit: executed by: blood brother.

19. I certify that I am the \_\_\_\_\_ named in this application;  
(See instructions for this item)  
that the statements made herein are made by me of my own free act and deed for the purpose of applying for Adjusted Compensation under the provisions of the World War Adjusted Compensation Act; and that the same are true and correct to the best of my knowledge and belief.

Date August 24, 1925 Signature of applicant Harry Ross Blund  
(First) (Middle) (Last)

Item 20 will not be filled in when dependent on this application

20. We, the undersigned, certify that we know the person signing the application to be identical with the veteran whose service is set forth in the above application; that we have known

him for 18 years and 2 years respectively;  
(Date of first acquaintance) (Date of last acquaintance)

and that he (she) understands the statements made by him (her) and the penalty provided by law for making false statements.

Signature of witnesses: (1) Rev. J. H. C. C. C.

Dear Sir...

Reference is made to telephone conversation and exchange of despatches relative to reserving accommodations for certain officers dependents from San Francisco, Cal., to Manila, P.I., on the PRESIDENT MADISON sailing from San Francisco on 30 April 1927.

The Commandant, Twelfth Naval District, San Francisco, Cal., has been authorized to issue transportation for the following named dependents, and has been informed that necessary reservations have been made through the New York office of the Dollar Line:

Mrs. H. R. Hubbard and son 16, family of Lt. (SC) USN.

All of the above dependents will report to the Commandant, Twelfth Naval District, who will issue the necessary transportation requests.

Very Respectfully,

R. E. LEIGH  
Chief of Bureau.

Dollar Steamship Line.  
25 Broadway,  
New York, N.Y.

Mr. Michael Linn Shannon  
P. O. Box 1525  
Portland, Oregon 97207

Dear Mr. Shannon:

Your note came this morning with the request for information on Lafayette Roland Hubbard, a former student, presumably, of the Woodward School, an accredited day school of the YMCA of Metropolitan Washington. It was founded in 1919 and closed in June, 1975. It had been integrated for some years and was co-ed when it closed.

This morning I searched the old records in the vault but failed to find a card for Lafayette. These records go back to the twenties.

Woodward was a good private school for boys and not necessarily only for those who could not make it in public schools. Classes were smaller and each boy received more individual attention. A good percentage of the graduates went on to college for four years.

Sorry I can not be of more help to you in this instance.

Sincerely,  
*Myrtle L. Johnson*  
(Miss) Myrtle L. Johnson,  
Office Manager

Sept. 7, 1955

TO THE FEDERAL BUREAU OF INVESTIGATION  
Communist Activities

Gentlemen:

A series of sudden insanities and disturbances in Dianetic and Scientology groups reached seven last week on the West Coast.

In Atomic Energy's Richland, Washington a young boy who had never been treated with Dianetics or Scientology but whose father Verne McAdams is the local Scientology group leader in Richland suddenly and mysteriously became insane, so suddenly and so thoroughly that the head of the institution for insane in Richland, evidently of good security, suspects the use of LSD; the insanity producing drug so favored by the APA. Two of our ministers in that area at my request went further into the situation and by means we will not detail recovered from the boy information of which his family had been entirely ignorant. On instructions to find the "other psychiatrist" our ministers by this means located an unsuspected one in Atomic Energy's front yard, a man who had been the construction company doctor during the building of Richland and who had then turned psychiatrist and whose name strangely enough is Menkowski (sp?). The boy had evidently had some association with this man before this sudden onset.

With this information not yet cool long distance from San Francisco Bay Area notified us of the sudden and inexplicable descent into insanity of one Wanda Collins. She is ravingly insane and yet was completely sane a day ago. Her people and our people cannot account for a missing nine hour period just before this onset. You should be interested in this because Wanda Collins resigned from the Communist Party some time ago, foreswore it and tried to make amends with Scientology and would be a logical candidate for an LSD attack.

Concurrently with this in Phoenix, Arizona

A-29

A-29

our Mr. Edd Clark was suddenly arrested "for practising medicine without a license", and this is very odd because he is the first Dianeticist or Scientologist in five years of world wide operation to be so accused. He could not have been practising medicine because Dianetics and Scientology seek only to assist able people to improve their talents and have no interest in sickness or insanity. He was arrested and without any search warrant all his papers and letters were seized even down to blank typewriter paper and were carried away, a fact which places this matter quite solidly in the field of the F.B.I.. Mr. Clark is a half-blind deaf old man. He was once a chiropractor but has long since ceased to be one. He was told by the County Attorney that the County Attorney meant to "get to the bottom of this thing about Hubbard and Scientology."

The "bottom of the thing" can be found in "Who Knows and What" and "Who's Who in the East" in the local library or from bookstores which carry my books. My own life is about as hard to investigate as a white rock on a summer's day.

It is not uncommon in the past five years to have judges and attorneys mad-dogged at about what a terrible person I am and how foul is Scientology. Persons never named or available step in, spread violent tales and accusations and vanish. This mad-dogging has evidently been done at this County Attorney to prompt such a foolish action. This makes the third civil official in that area to go off half-cocked about Scientology. When it is all done and Scientology has been neatly ruined by the newspapers in the area and when all the charges have been quashed there is no one from whom any recompense can be drawn. "It was all a mistake"---

In 1950 the Dianetics Foundations were violently attacked and discredited. The 200 Foundation employees, when screened, yielded 35 Communist-connected persons. That done the commotion stopped. After three quiet years in the Phoenix area we forwarded to the Defense Department data on brain-washing. Instantly

(134)

51c

we became the subject of violence. Four people were seized by psychiatrists in that area to date and to this day so far as I know are still being held, their sanity shattered.

After we so informed the Defense Department about brain-washing technologies in our hands and offered them, we have been in a state of siege. Understand that we accuse the D.D. of nothing.

Psychiatrists as far north as Seattle have said they were "out to get every Scientologist." An Internal Revenue official has used those very words before witnesses and said he was going to get to the bottom of this thing in Phoenix. People in suspicious condition were sent from one place in Southern California to be "treated by Scientology" for insanity and yet we have no interest in treating anyone, especially the insane. Now two more people go suddenly and inexplicably insane in widely different places both the same way. All manner of defamatory rumors have been scattered around about me, questioning even my sanity which is fortunately a matter of good record with the Navy as by statement "having no psychotic or neurotic symptoms whatsoever."

I have a wife and three little kids. I have a good many thousand people scattered around the world trying to help their fellow man and I am responsible for these people. I am trying to turn out some monographs on matters in my field of nuclear physics and psychology for submission to the government on the subject of alleviating some of the distress of radiation burns, a project I came east to complete. This lawless and brutal attack on Scientology now spreading evidently to three states will probably not end until a great deal of injustice and human suffering has occurred.

Would you please discover for me or for yourselves the exact names and whereabouts of the persons whose statements inflamed the County Attorney in Phoenix in arresting a half-blind old man and seizing all his books and papers. If we have those names and if we trace them back we will have someplace to start on this madness

(13)

which now reaches into three states. Can you do this for us?

I am getting additional copies of the material which was offered to the Defense Department since that agency has not acknowledged or returned anything shipped to it about brain-washing and when I have these copies I will send one to you for this is the only starting place I know about for this outbreak and the matter, while far from conclusive at least tells me that something went astray which was dangerous in the wrong hands.

Could you please have your Phoenix office obtain the names of the people who defamed us to the County Attorney? Your Bay Area and Richland offices have already been apprised of the incidents in those areas.

L. Ron Hubbard

Box 242

Silver Spring, Md.

July 29, 1955

TO THE FEDERAL BUREAU OF INVESTIGATION  
Communist Activities Division  
Ref - my earlier correspondence.

Gentlemen:

Having gotten on a somewhat more even keel after the collapse of the organization in Phoenix, Arizona (the HASI) and having begun operation in the East with more public success and enthusiasm than I am used to, I have a better perspective on what occurred in Phoenix.

The attack on the HASI, like the attacks on the 1950 Hubbard Dianetic Research Foundation found psychiatry and Communist connected personnel very much in evidence and both active with defamation and very unreasonable - and unsuccessful - attack.

But something has now occurred which seems strange at this juncture and entirely too pat. I have received from an unimpeachable source an invitation to go to Russia. I have been told that this would be as easy as taking a taxi to the airport.

But the oddity of this invitation is that the person extending it, evidently on behalf of the Russian government, would not know anything about the trouble in Phoenix. He obviously has no connection with anything or anyone in Phoenix. Further, he knows little or nothing of Dianetics and Scientology and their organizational history and would not know, by any usual means, what occurred in Phoenix. Out of the blue, on an acquaintance with me from many, many years ago he locates me here, is very quiet and casual and then gradually works into the Russian situation and finally, with a burst of enthusiasm confides in me that in view of the state of my organizations in the United States (about which he would really know nothing in fact) and in view of the U.S. public attitude toward me (which is in actuality rather good considering) and in view of the fact that I "am a cinch to be ruined by all the people who hate me in Internal Revenue" there is "really nothing left for it but to accept this Russian offer."

SEE REVERSE SIDE FOR  
ADD. DISSEMINATION.

61 AUG 10 1955

RECEIVED JUL 29 1955

A-28

A-28

In the greatest spirit of friendship and comraderie it seems that I can go to Russia as an advisor or a consultant and have my own laboratories and receive very high fees. And it is all so easy because it has already been ascertained that I could get my passport extended for Russia and all I had to do was go to Paris and there a Russian plane would pick me up and that would be that.

Indeed I suppose that that would be that.

This is my third invitation to go to Russia. The first was extended to me by a member of Amtorg in New York in 1938 who knew of my work in the field of the mind. The second occurred less directly in 1948 after some personal difficulty. This third has come when the Phoenix organization has been collapsed and it would not be known that it did not influence my own affairs as much as it might be thought.

With this some of the personnel connected with the recent Phoenix trouble has now drifted into Washington. ~~Shulrie~~ ~~Karinus~~, the girl connected with Jackins in Seattle has arrived here. ~~Wm. Burke~~ ~~Belknap~~, although an officer in Phoenix seems either the effect of that activity or assisted it and is here, busy on the phone eight hours a day with local calls in an area where he has never lived. ~~Carol Hadley~~ ~~Bryans~~, also an officer in Phoenix, has likewise arrived and is likewise busy on the phone but neither of these last two seem prone to do any work but are very busy spreading disquiet amongst the personnel connected with me here. Two young men, also strangely connected arrived here and were sent home by me quickly - ~~Bernard~~ ~~McKnown~~ and ~~Jim~~ ~~Henry~~ both formerly of Hollywood - they arrived anxious to discredit the better people in the organization. One ~~Jack~~ ~~Horner~~ has come here and has many rumors with which to upset Washington personnel - Horner will be recalled as the minister recently deported from England by the Home Secretary; I have just stopped Horner from further defiance of English law on behalf of his "fiance" in London and further discrediting of Scientology in the English papers.

In short I have my hands a little full but unless such people actually can stir up great trouble we will survive easily and well. I am trying to disperse them from the area.

I suppose when the Russian-inclined "friend" finds that

(131)

21

my desires to travel in and work in Russia do not exist, I can expect more violent measures.

I have not given you the name of this contact because he is a little too highly placed on the Hill and because it may be that he is acting in an entirely friendly way and it may be, as I sometimes learn, that the fate of Scientology and its adventures has good word of mouth. I would not submit you an irresponsible report which then might find me under the TV cameras telling one of this man's committees why I reported him as a Communist because I do not know that he is - I only know that he and his influence has been quite liberal and in all the smoke of the Summit he may be carried away with enthusiasm. But he did know, when no possible reasonable way existed for him to know too much about the activities of a subject about which he professes to know nothing and he has made several allusions to my possible fate in the United States, rather benign threats.

SAINT ELIZABETHS HOSPITAL

Mr. Michael Linn Shannon  
P.O. Box 1526  
Portland, Oregon 97207

Dear Mr. Shannon:

This letter comes in response to your note of October 6, 1979, in which you ask for certain information on Mr. Lafayette Ronald Hubbard, Sr. The information is presented in question and answer format in order to provide the necessary specificity:

Q: Is Saint Elizabeths a psychiatric facility?

A: Yes.

Q: Have you a record of subject (Lafayette Ronald Hubbard)?

A: We have no record on Mr. Hubbard.

Q: Will you release record on Mr. Hubbard?

A: We do not have any record on Mr. Hubbard.

Q: What are the educational prerequisites for being a student at Saint Elizabeths?

A: Saint Elizabeths accepts students who are completing an internship as a part of a college educational program. Therefore, the requirements would be successful completion of the course of studies prescribed by the college or university.

Q: Will you verify if subject was an intern, orderly, or psychiatric attendant?

A: We have no record of the subject being employed at Saint Elizabeths.

Q: Have you a record of William A. White, M.D.?

A: The attached material on William A. White might prove helpful.

Sincerely yours,

Attachment

Dear Mr. Shannon:

Thank you for once again writing to the National Geographic Society.

We do not have records which indicate that LaFayette Ronald Hubbard is currently a member of the National Geographic Society or that he participated in any expedition sponsored by the Society.

For your interest, I have enclosed several pages with biographical information on Mr. Hubbard. These were copied from volumes 77-80 of Contemporary Authors, published by the Gale Research Company in 1979. These pages include information on Mr. Hubbard's participation in various expeditions.

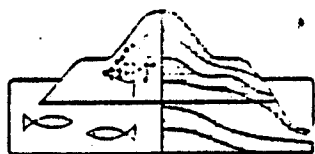

I trust this information will prove helpful. It was a pleasure to be of assistance.

Sincerely yours,

Dear Mr. Shannon:

Reference is made to your inquiry regarding a mineralogical study made in 1932 by one L. Ron Hubbard.

I am enclosing a copy of page 18 of the "Bibliography and Index of the Geology of Puerto Rico and Vicinity". As you can see the only Hubbard on record is not same one and at a much earlier date.

I hope this answers your questions.

Yours truly,

October 10, 1979

Mr. Michael Shannon  
P. O. Box 1526  
Portland, Oregon 97207

Dear Mr. Shannon:

The U.S. Geological Survey library in Reston, Virginia has no publications by Lafayette Ronald Hubbard, nor is there reference to him in any other publication, in connection with Puerto Rico. I found publications by a Bela Hubbard with reference to a geological survey done in Puerto Rico in 1923.

In 1913 the New York Academy of Sciences started a scientific survey of Puerto Rico. Nineteen volumes that described these efforts were published between 1913 and 1942. Enclosed is a photocopied list of the volumes issued. Bela Hubbard's paper, "The geology of the Lares District, Porto Rico," can be found in vol. 2, part 1, of the New York Academy of Sciences--Scientific Survey of Porto Rico. The publications may possibly be available in Oregon Federal depository libraries shown on an enclosure. Your local library can borrow books for you from one of these libraries on interlibrary loan, or from the USGS library in Reston.

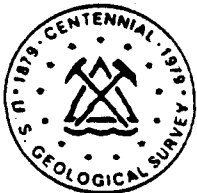

During 1898-1899 R. T. Hill and H. B. C. Nitze conducted mineral resource investigations in Puerto Rico. Enclosed are photocopies of the two reports from the U.S. Geological Survey Annual Reports for 1899.

If you wish to contact the Puerto Rico Geological Survey in connection with your inquiry, their address is c/o Dept. of Natural Resources, Box 5887, Puerta de Tierra Sta., San Juan, Puerto Rico 00906.

Enclosed are courtesy copies of the U.S. Geological Survey topographic map index, catalog of geologic and water-supply reports and maps on Puerto Rico and the Virgin Islands, and the geologic map index of Puerto Rico.

Sincerely yours,

Mary Ann Przedpelski

HATO REY, PUERTO RICO 00912

March 1, 1980

Mr. Michael Linn Shannon  
P. O. Box 1526  
Portland, Oregon 97207

Dear Mr. Shannon:

After a trip to the States, I received your note asking about Hubbard and his work in Puerto Rico. I am not sure we are talking about the same man, for the scientist of which I have reference is Bela Hubbard who in 1923 prepared a geology survey of northwestern Puerto Rico, published by the New York Academy of Science as "Geology of the Lares District," Volume II. Scientific Survey of Puerto Rico and the Virgin Islands. I have no other reference to Bela Hubbard.

In his work on the Lares District, Hubbard does have a short section on the minerals of the area that did not amount too much. If Dr. Howard Meyerhoff doesn't have any information about further minerals studies produced by Hubbard, I doubt that it ever occurred, as Meyerhoff is our outstanding expert on the geology and the minerals of Puerto Rico.

Sincerely yours,

/apa

# Agricultural Relief in Porto Rico

By Paul L. Hutchins

Staff Accountant, American Red Cross

67a

WHEN the hurricane of Sept. 13, 1928, swept the island of Porto Rico it destroyed or damaged the coffee trees and shade trees in the coffee regions on approximately 200,000 acres, or 90 per cent of the total coffee acreage in the island, ruining a foremost income-producing industry.

One of the best coffee crops in the history of the island had been anticipated, and prospects were bright for the coffee farmers to make large reductions in outstanding loans against their farms. In many cases anticipated crops had been sold. Owners also had received cash advances from their buyers on their crops to be harvested, in order that necessary repairs to buildings might be made before the harvesting actually commenced.

Following the disaster food, clothing, building materials and medical aid were supplied to these unfortunate people. In extending relief of a more permanent nature to the coffee farmers the American Red Cross had four plans. First, the planting of the coffee seed beds in order that coffee seedlings might be furnished to the farmers to replace coffee trees lost in the storm. Second, the furnishing of 2,000 sets of pruning tools in order that the trees salvaged might be made to produce a maximum crop in a near future. Third, the distribution of garden seed in order that a quick food supply might

be made available. Fourth, the clearing away of the debris in order that the few coffee and shade trees remaining might be given every chance to recover.

The results of the third plan—that of furnishing garden seed—were in evidence practically two months after the first seeds were issued in the abundant supplies of fresh vegetables available over the entire island. The results were so far reaching that it was decided to place a proviso in the fourth plan—that of clearing away the debris in the farms—so that every farmer who received assistance in the clearing of his farm agreed to plant half an acre in garden seed, the crop to be divided equally between the owner and the laborers.

Considerable opposition was met in placing the second plan in operation—that of pruning the coffee trees and shade trees—for to the coffee farmers, who in very few instances had practiced pruning, it appeared that what remaining bush was left was going to be destroyed. The Insular Department of Agriculture was of great assistance in overcoming this opposition as the Commissioner of Agriculture had just returned from Colombia, where he had made an extensive study of the methods employed on the coffee farms in that country and he was able to bring back concrete facts of the results from scientific pruning. Today there is no opposition to pruning, for in Porto Rico trees that were pruned in September, 1929,

having been cut back to within four inches from the ground, in six months had strong, healthy shoots approximately four and one-half feet high with a great many new shoots blooming. This is regarded as assuring that a small crop will be harvested from these new trees this year. Not only were coffee and shade trees pruned, but the wild orange and grapefruit trees showed marked improvement from pruning.

In carrying out the plan of furnishing coffee seedlings to replace trees totally destroyed by the storm, 165 seed beds were planted and 10,000,000 coffee seedlings raised for free distribution by August, 1930. It is estimated that these seedlings will replant approximately 15,000 acres. These seed beds have been under the direct supervision of the Insular Department of Agriculture and the seedlings were raised from selected seeds.

Seeds planted in 1929 which are now one year old average approximately 15 inches in height. In some of the seed beds where there was a larger amount of rainfall the seedlings are higher and some were in bloom late in March.

In carrying out the plan of clearing away the debris, a total of about 119,700 acres

A coffee tree pruned in September, 1929, arrow indicating pruning mark

The same coffee tree in March, 1930, its shoots actually five feet high

17,533 farms, thereby assisting 59,238 families.

In summing up the results of the Red Cross agricultural relief program in Porto Rico there are three outstanding facts which, it is confidently believed, will aid in correcting the economic condition of the island. First, the farmers have been shown, through the distribution of garden seed, that a quick crop may be raised which provides food of a highly nutritive value, and which will be, in the opinion of the medical authorities, of great assistance in the fight against malnutrition and tuberculosis. Second, the farmers have been shown that it is practical to prune their coffee, shade and other trees which produce income and that by this pruning the stock on those plants may practically be renewed in two years' time without replanting. Third, through the distribution of coffee seedlings from selected seed, which produce stronger and healthier coffee trees, the old practice of picking up seedlings which originated from coffee beans that dropped off the trees and germinated, and which in a great many instances were not strong and healthy plants, has been abandoned to a large extent.

Not only has the American Red Cross assisted the farmers of Porto Rico, but its relief program assisted the Insular Department of Agriculture in developing the agricultural industry of the island on a scientific basis. This Department has been most cooperative in carrying out the agricultural relief program and it is planning to establish demonstration plots in each district with a total area of about 2,000 acres as a permanent memorial to the Red Cross work in the

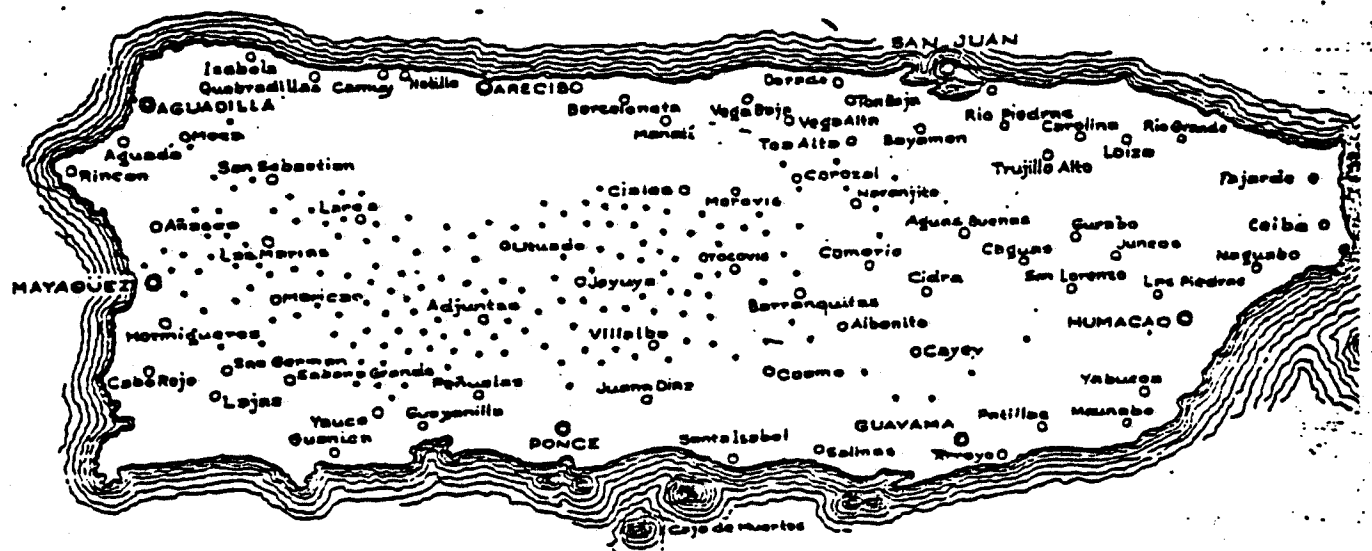

Coffee seedlings about 15 inches high, propagated at Adjuntas—Left to right: Dr. A. Fernos Isern, chairman of Porto Rico Chapter; P. L. Hutchins, of American Red Cross staff; Ignacio Torres, of the Department of Agriculture; Capt. Antonio Silva, manager of Porto Rico Chapter—examining the development of the seedlings.

island in order that the farmers may always envisage the results of scientific farming.

The Commissioner and Assistant Commissioner of the Insular Department of Agriculture have expressed themselves as being very grateful to the American Red Cross for the part it has played in assisting the coffee farmers to rehabilitate themselves. In his annual report to the Governor for the fiscal year ended June 30, 1929, the Commissioner states, in referring to the work of the Bureau of Agricultural Extension: "The most important work carried out by this bureau during the year has been the project on coffee-seed beds for which the American Red Cross appropriated the sum of \$30,000."

Throughout the island the rehabilitation program has met with perfect cooperation and everywhere there is confidence in a complete restoration of the important coffee industry.

This map of Porto Rico shows the extent of the coffee industry—The dots (165 of them) indicate the location of the coffee seed beds maintained by Red Cross relief funds

NAVY DEPARTMENT  
BUREAU OF NAVIGATION  
WASHINGTON, D. C.

15 October 1932

Mr. J. B. Upham,  
Chief of Bureau,  
Bureau of Navigation,  
Washington, D. C.

Subject: Transportation. 153 22 773.

1. The Bureau of Navigation hereby authorizes transportation for USS KITERY aboard the U.S.S. USS KITERY sailing on or about 26 October 1932 from HAMPTON ROAD to the San Juan, Porto Rico not later than 26 Oct 42 Commanding Officer, USS KITERY.
2. Notify this Bureau immediately if you decide not to avail yourself of this transportation.
3. Dogs and other domestic animals are not allowed aboard without first obtaining the Commanding Officer's permission.
4. All passengers must be vaccinated with cowpox vaccine before departure or present a properly signed certificate showing evidence of successful vaccination with potent vaccine within one year prior to the date of sailing. A history of smallpox does not exempt a person from vaccination against that disease.
5. Vaccination against typhoid is required for all passengers prior to departure excepting those under three or over forty-five years of age, or those who present evidence of having received two complete courses of typhoid vaccine or a complete course within the past three years. In emergencies, this vaccination may be started upon arrival on board by the medical officer of the transport. Paratyphoid vaccination is not required.
6. Each prospective passenger should undergo physical examination and obtain medical certificate prior to departure from home, showing absence of infectious or contagious diseases, and that general health permits travel; otherwise, passenger is subject to examination at port of embarkation and exclusion if not physically acceptable.
- 7.

F. B. UPHAM,  
Chief of Bureau.

OCT 14 1932

FROM: Lieut. H. R. Hubbard, U.S.Navy.  
TO: Bureau of Navigation, Navy Department, Washington, D.C.  
VIA: The Commanding Officer.  
Subject: Request transportation for son, L. Ronald Hubbard.

1. It is requested transportation be authorized for my son, Lafayette Ronald Hubbard as follows:

Hampton Roads, Virginia to San Juan, Puerto Rico, on the U. S. Navy Transport Kittery, sailing from Hampton Roads on or about October 26, 1932.

2. The purpose of sending my son to Puerto Rico is to place his services at the disposal of the American Red Cross in their relief work on that Island. Advice concerning him has been forwarded from the Foreign and Insular Department, American Red Cross, Washington, D. C. to the Puerto Rico director.

3. Such accommodations as are available at date of sailing, either First Class or Troop, will be satisfactory and appreciated.

*H. R. Hubbard*  
H. R. HUBBARD.

First Endorsement. U.S. Naval Hospital, Washington, D.C.,  
13 October 1932.

From: The Commanding Officer.  
To: Bureau of Navigation, Navy Department.

1. Forwarded.

December 4, 1979

Michael Linn Shannon  
P.O. Box 1526  
Portland, Oregon 97207

Dear Mr. Shannon:

Your letter of October 9 has been forwarded around the University. Neither the Registrar's Office, the Alumni Records Office, nor the Information Service can find any record of Lafayette Ronald Hubbard as a student or graduate of the University of Michigan.

This library serves as the archives of the University. I have checked the Student Directory for the four years 1929-1930 to 1932-1933 and found no record of his attending the University. I checked the Regents Proceedings for 1930-1931 and 1931-1932 but the index failed to list a "Carribean Motion Picture Expedition." The Michigan Alumnus also fails to note such an expedition though expeditions to Guatemala, Mexico, and Greenland are discussed at some length.

I am sorry we cannot help you.

Sincerely yours,

*Mary Jo Pugh*  
Mary Jo Pugh

MJP:dh

Hubbard--Explorer's Club, 46 E. 70th St., New York, N.Y.  
1-212/628-8383  
Ward Randol, executive director  
Ref: George Crosette, Nat. Geographical Society.

Hubbard currently a fellow non-resident. Joined in 1940.  
Allegedly doing marine archaeological research in  
Mediterranean.

On application, he lists the following:

1. In 1932-33, conducted first mineralogical survey of Puerto Rico.

Clifford Kaye, U.S. Geological Survey, Interior Dept., Boston, Mass., 1-617/223-7200, who has done geological work in Puerto Rico, reported on June 22, 1970, that Hubbard's name was not mentioned or listed as staff in the Mineral Resources Study of 1932-34. Also, Kaye said neither the U.S. Bureau of Mines nor the Puerto Rican government mentioned Hubbard. Kaye said a man named Bela Hubbard published materials on geological surveys of Puerto Rico, but that was in the early 1920s. Kaye said Dr. Howard A. Meyerhoff, who was chairman of the Mineral Resources Committee, could definitely state whether Hubbard was ever involved. Meyerhoff is retired; lives at 3625 S. Florence Place, Tulsa, Oklahoma, 1-918/743-2113.

2. Undated. Survey flights in U.S. to aid adjustment of field and facility data.

Unable to check.

3. Sometime between 1933 and 1939, obtained valuable data during Caribbean expedition for U.S. Hydrographic Office in Washington, D.C., and for the University of Michigan.

Mrs. Carolyn Anderson, National Geographic Society, Washington, D.C., 1-202/296-7500, on June 22, 1970, reported she contacted Miss Clare Thomas, public information office of the Oceanographic Office of the Department of the Navy in Suitland, Md., 1-763/301-1370 (Oceanographic Office replaced Hydrographic Office). Miss Thomas, in turn, contacted William G. Watt, Arlington, Va., 1-703/522-7032, who is retired from old Hydrographic Office and who was involved in Caribbean expedition. Watt can recall no one named Hubbard on the expeditions, and can't recall any University of Michigan involvement. Watt said only nonmilitary people on expeditions were hydrographers, a skill Hubbard has never claimed. (It should be noted the expeditions took place while Hubbard was not in the military. Hubbard in Marines from Oct. 1927, to Oct., 1928, and in Navy from June 25, 1941, to about May 27, 1950.)

MORE

NOTE

3. 1939-40. Spent 13 months on Alaska Experimental Radio Expedition to investigate a new method of radio position finding entailing a new aerial and a new mathematical computation and instruments.

Mrs. Anderson of the National Geographic Society reported she checked the authoritative, multi-volume Arctic Bibliography and could find nothing concerning 1939-40 Alaska Experimental Radio Expedition.

4. In 1940, to Alaska to rewrite the U.S. Coast Pilot, Alaska, Part I. (The Coast Pilot is a navigational guide.)

Contacted Lloyd L. Clay, chief, Coast Pilots Branch, U.S. Coast and Geodesic Survey, Rockville, Md., 1-301/496-8214. Clay checked the 1940 roster of Coast and Geodesic officers, as well as annual reports and bulletins, but could find no mention of L. Ron Hubbard. He did locate an officer in 1940 named Leonard S. Hubbard, but he retired in 1956 and is now age 74. Checking further, Clay contacted retired civilian Coast Pilot employe Frank S. Farquhar, who was in Washington, D.C., office in 1940. Farquhar reported no civilians were at that time sent to do field ~~work~~ work. L. Ron Hubbard still would have been in mufti. Clay said the U.S. Coast Pilot, Alaska, was revised and rewritten in 1932. Annual supplements followed until the next complete revision in 1943. The revision was substantially based on the field work of Lt. Earl A. Daley, who was sent to Alaska for that purpose in 1942.

Dear Mr. Shannon:

This is in reply to your inquiry of 8 October 1979 concerning the licensing of Mr. Lafayette R. Hubbard.

A check of the license records at Coast Guard Headquarters indicate no record of Mr. Hubbard being licensed by the U. S. Coast Guard.

We regret we are unable to assist you in this matter.

Sincerely,

J. R. NORMAN  
Commander, U. S. Coast Guard  
Chief, Licensing and Evaluation Branch  
Merchant Vessel Personnel Division  
By direction of the Commandant

Dear Mr. Shannon:

Your request for information concerning Lafayette Ronald Hubbard, which was addressed to the U. S. Maritime Administration, has been forwarded to this office for a reply.

From the information provided by you, we have been unable to identify Mr. Hubbard as having held a license issued by the Coast Guard. If you can provide any further information, such as a Merchant Mariner's Document number, or advise us of the port at which the licenses were issued, we will be pleased to resume our search.

A bill for our services is enclosed.

Sincerely,

J. H. GUEST

Veterans  
Administration

JAN 25 1980

Mr. Michael Linn Shannon  
PO Box 1526  
Portland, OR 97207

Re: Lafayette Ronald Hubbard

Dear Mr. Shannon:

This is in response to your letter of January 15 which requested information concerning Mr. Hubbard under the Freedom of Information Act (FOIA), Title 5 U.S.C. 552. As I will explain below, we cannot provide most of the information you want unless Mr. Hubbard authorizes us in writing to do so.

We can respond to your request for information about the amount of benefits presently being paid to him. Title 38 U.S.C. 3301(c) states that "the amount of pension, compensation or dependency and indemnity compensation of any beneficiary shall be made known to any person who applies for such information..." Accordingly, you are advised that Mr. Hubbard is presently receiving veterans benefits in the amount of \$182.00 per month.

Title 5 U.S.C. 552(b)(6), which you have referred to as exemption 6, exempts some information from disclosure without the consent of the person to whom the information pertains. The diagnosis of medical disorders and the degree to which each disorder is disabling; the total percent of disablement; a veteran's address; the address to which benefit checks are being sent; dates of hospitalization by a military service or the Veterans Administration; and conditions for which a veteran has been hospitalized are facts coming within this exemption. Disclosure of this information without Mr. Hubbard's consent would be a clearly unwarranted invasion of his personal privacy, in my judgment.

Congress clearly intended this information to be treated as personal and confidential. This is shown by Title 38 U.S.C. 3301(a) which provides that all records pertaining to any claim under any law administered by the VA shall be confidential and privileged. Regulations implementing this law, Title 38 Code of Federal Regulations 1.500 through 1.527, preclude disclosure of such information in circumstances presented by your request unless the veteran consents to the disclosure. Additionally, Title 5 U.S.C. 552a, commonly called the Privacy Act of 1974, with some exceptions not pertinent here, prohibits disclosure of personal records in the possession of a Federal agency without the prior written consent of the individual to whom the records pertain.

Pursuant to 5 U.S.C. 552(a)(b)(A)(i) and VA Regulations 553.1(B) and 557(A), you are hereby notified that you have a right to appeal this decision to the Administrator of Veterans Affairs. Any appeal must be in writing, should

In Reply Refer To: 348/271

Michael Linn Shannon

Re: Lafayette Ronald Hubbard

state you are appealing a determination of the Portland Veterans Administration Regional Office denying you information, and should reasonably describe the information you have requested. Please address any such appeal to: Administrator of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420.

Sincerely yours,

  
R. J. VOGEL  
Director

Born in Boston, Mass., 29 September 1857. Paul Rounseville Alger graduated from the Academy in 1880 with first honors. In 1880 he was appointed Professor of Mathematics at the Academy. For many years he was Secretary-Treasurer of the Naval Institute and was also editor of the *United States Naval Institute Proceedings*. He was the author of several works on ordnance and applied mechanics. He died at the Naval Hospital, Annapolis, 23 February 1912.

(DE-101: dp. 1240; l. 308'; b. 38'8"; dr. 11'8"; a. 21 k.; cpl. 188; a. 3 3", 3 21" TT.; cl. Cannon)

*Alger* (DE-101) was launched 8 July 1943 by Dravo Corp., Wilmington, Del.; sponsored by Miss Louisa Rodgers Alger, daughter of Professor Alger; commissioned 12 November 1943, Lieutenant Commander W. F. Porter in command; and reported to Commander, 4th Fleet.

*Alger* carried out screening and patrolling duties in the waters off Recife, Bahia, and Rio de Janeiro, Brazil, between February 1944 and March 1945. On 10 May 1944 she rescued ten survivors of the British steamer *Janeta*.

On 10 March 1945 *Alger* was decommissioned and transferred to the Brazilian Navy.

### Algol

Algol is a star in the constellation Perseus.

(AKA-54: dp. 6830; l. 458'2"; b. 63'; dr. 28'4"; a. 16.5 k.; cpl. 429; a. 1 5"; cl. Acheron)

*Algol* (AKA-54) was launched 17 February 1943 by Moore Dry Dock Co., Oakland, Calif., for the Maritime Commission as *James Baines*; sponsored by Mrs. J. A. McKeown; transferred to the Navy and placed in partial commission 27 November 1943; decommissioned 3 December 1943; converted into an AKA by Willamette Iron and Steel Corp., Portland, Oreg.; and fully commissioned 21 July 1944, Lieutenant Commander A. T. Jones, USNR, in command.

*Algol* departed the west coast 3 September 1944, arriving at Eniwetok 18 October 1944 and Hollandia, New Guinea, 6 November. She carried reinforcements (25th Infantry Division) to Lingayen Gulf, landing them 13 January 1945; assault troops in the Zambales, Luzon, landings (29-31 January); and reserves in the Okinawa invasion (1 April). After Okinawa, *Algol* returned to the west coast, arriving at San Diego 4 May. Following one voyage to Pearl Harbor, she departed San Francisco 6 July for the Western Pacific, arriving at Ie Shima, Ryukyu Islands, 9 September. For the next year she carried cargo and passengers between Chinese, Philippine, Alaskan, and west coast ports. In October 1946 she was assigned to the Naval Transportation Service and continued trans-Pacific operations.

Inactivated at San Francisco 26 November 1947, *Algol* returned to the active fleet 18 February 1948 and three months later joined Service Force, Pacific Fleet. Once more she drew trans-Pacific duty, but in July 1949 she was reassigned to Amphibious Force, Atlantic Fleet. She made one cruise (June 1949-January 1950) to the Mediterranean and then returned to the Pacific, 27 August 1950. *Algol* departed San Diego 30 August 1950 with supplies and reinforcements for the Marines in Korea. She remained in the Far East until June 1951 taking part in the Wonsan landing (25 October) and the Chinnampo evacuation (4-7 December). Except for an extended overhaul at Puget Sound Naval Shipyard (September-October 1951) and two tours in the Western Pacific (March-December 1952 and March-July 1954), *Algol* served on the west coast as part of the Amphibious Force, Pacific Fleet, until placed out of commission in reserve at Long Beach, Calif., 2 January 1958.

*Algol* received two battle stars for her operations in World War II and five Korean battle stars.

### Algonquin

The Algonquin are a Canadian Indian tribe.

The double-ended gunboat *Algonquin* was launched by New York Navy Yard 21 December 1863 but failed her trials because of poor machinery and was never commissioned. She was sold 21 October 1869.

### I

The newly purchased tug *Algonquin* was renamed *Accomac* (q. v.) 15 June 1898.

### II

(RC: dp. 1181; l. 205'6"; br. 32'; dr. 13'2"; a. 16 k.; a. 4 6-pdr.)

*Algonquin* was built in 1897 for the Revenue Cutter Service by Globe Iron Works, Cleveland, Ohio. During the Spanish-American War, she was taken over by the Navy and operated, for a short time, with the North Atlantic Fleet. She was returned to the Revenue Cutter Service 17 August 1898.

*Algonquin* was again transferred to the Navy by Executive Order on 6 April 1917. From 14 October 1917 she operated with the patrol force at Gibraltar as a convoy escort. After returning to the United States at the end of the war, she cruised in the North Atlantic until May 1919 when she was transferred to the 13th Naval District. On 2 September 1919 she was returned to the Coast Guard at Seattle.

### Algorab

Algorab is a star in the constellation Corvus.

(AK-25: dp. 7293; l. 459'1"; b. 63'; dr. 28'5"; a. 15.5 k.; cpl. 267; a. 4 5"; cl. *Arcturus*)

*Algorab* (AK-25) was launched 15 June 1939 by Sun Shipbuilding Co., Chester, Pa., as *Mormacoren*; acquired by the Navy 6 June 1941; commissioned 15 June 1941, Commander T. B. Inglis in command; and reported to the Atlantic Fleet.

Until September 1942 *Algorab* made cargo runs to Newfoundland, Iceland, Cuba, and Tongatabu. On 11 September 1942 she collided with *Harris* (AP-8) while executing a tactical maneuver and suffered one man killed and lost 23 feet of her bow. She proceeded unassisted to Norfolk where repairs were completed on 7 October 1942. Between 8 and 11 November 1942 *Algorab* participated in the Port Lyautey, Morocco, landings. Departing North Africa on the 18th, she returned to Norfolk.

*Algorab* arrived at Noumea, New Caledonia, in January 1943 and was redesignated AKA-8 on 1 February 1943. Throughout the remainder of World War II she provided logistic support during the following operations: consolidation of the southern Solomons (January-June 1943); New Georgia-Rendova-Vangunu occupation (30 June 1943); and the assault and occupation of Okinawa (1-9 April 1945).

*Algorab's* service was limited during late 1943, all of 1944, and most of 1945, due to faulty engines. She returned to San Francisco 18 May 1945; was decommissioned 3 December 1945; and transferred to the Maritime Commission 30 June 1946.

*Algorab* received four battle stars for her services in the Atlantic and Pacific during World War II.

*Elisha Whitney* was acquired from the Army 12 June 1951, renamed *Algorab* (AK-262), and loaned to Korea the same day.

Dear Mr. Shannon:

This refers to your letter of October 20, 1979.  
The following search report is made:

Search in the indexes and catalogs of the Copyright Office covering the period 1898 through April 3, 1979 under the name Lafayette Ronald Hubbard and the titles (where available) A LOOK INTO SCIENTOLOGY and 1/10 OF 1% OF SCIENTOLOGY failed to disclose any separate registrations for works identified under this name and these specific titles.

Your remittance of \$10 has been applied in payment for this search and report.

Sincerely yours,

Joseph A. Seaward

## Columbia Pictures

August 31/79

Mr MICHAEL SHANNON  
P.O. Box 1526  
Portland, Oregon 97207

Dear Mr Shannon:

Acting on your suggestion, I have researched the story/screenplay credits on the 1938 serial THE SECRET OF TREASURE ISLAND.

The original story (scenario) is credited to L. Ron Hubbard and George Rosener. The continuity (actual screenplay) was executed from this story by Messrs. Elmer Clifton and George Merrick.

Sincerely,

DENNIS DOPH  
National Sales Manager,  
Columbia Non-Theatrical

REFER TO: AAC-260

SUBJECT: Request for airman information; your ltr of 5/27/79

FROM: Chief, Airmen Certification Branch, AAC-260

TO: W. F. Hess  
P.O. Box 1526  
Portland, Oregon 97207

According to our records, Lafayette R. Hubbard was issued commercial glider pilot certificate 385, dated 9/1/31, expired 9/15/33. Mr. Hubbard did not renew his pilot certificate after it expired in 1933.

The United States Government started licensing pilots in April 1927. Mr. Hubbard was not the 385th pilot certificated, only the 385th glider pilot certificated. Airplane pilots were numbered separately from glider pilots.

I hope this information is helpful. If you need additional information or if we can be of service regarding other aviation matters, please write.

EARL F. MAHONEY
